EDUCATION

University of California, Berkeley, Haas School of Business, Berkeley, CA **May 2027**

Master of Business Administration

- Recipient of Merit Scholarship; Asian Business Club (Co-President); Digital Media Club (VP); Haas Consulting Club

Indiana University Bloomington, Luddy School of Informatics, Bloomington, IN **May 2021**

Bachelor of Science, Informatics; Minors: Human-Centered Computing and Entrepreneurship **GPA: 3.74/4.00**

- Dean's List; Alpha Kappa Psi Business Fraternity (VP Professional Development); Consulting Peer Advisor

EXPERIENCE

Lucent, Berkeley, CA **2025 – 2026**

Generative Engine Optimization (GEO) and SEO services firm; designed a platform to track brand presence in AI search

Co-Founder and CEO

- Closed first paying pilot by testing 5 positioning hypotheses across 65 outbound prospects to isolate the highest-performing messaging; improved response rate 50% and secured 5 letters of intent in 30 days
- Defined GTM and pricing strategy by conducting 100+ discovery interviews on segment needs and willingness to pay; identified \$100K in first-year revenue potential from U.S. and APAC SMBs
- Reprioritized platform roadmap by benchmarking 15 GEO competitors on price-feature tradeoffs; cut 50% of lower-priority features and shortened time to market from 9 to 6 months

Tritooling Precision Corporation, Parañaque, Philippines **2024 – 2025**

Precision manufacturer serving semiconductor, medical device, and industrial clients across APAC

Director of Operations

- Built APAC market-entry case by benchmarking pricing and expansion potential across 5 countries; secured board approval to launch in Japan, the highest-value market with a \$300K+ revenue opportunity
- Developed make-vs-buy business case to bring ERP in-house by modeling vendor costs against internal requirements; secured executive approval and quantified \$100K in annual savings
- Resolved production bottlenecks by managing 7 direct reports and introducing a performance-management framework across operations, logistics, and engineering; improved on-time delivery 15% and cut defects 30%

Ernst & Young (EY) U.S. LLP, New York, NY **2021 – 2024**

Senior Technology Consultant, AI & Data Strategy (2023–2024)

- Structured and led client's first QBR by synthesizing performance and financial data into an executive storyline; aligned CTO and product teams on program direction and redirected \$3M to priority initiatives
- Prioritized cloud migrations across a Fortune 500 life sciences client's IT portfolio by estimating savings through a value-capture framework; secured SVP approval and realized \$10M+ in savings over 2 years
- Built OKR and risk framework for \$200M+ cloud migration by directing 5 junior consultants and engineers and aligning 25+ teams on shared targets; reduced executive escalations 30% and scaled the approach to 5+ programs

Staff Technology Consultant, Data Analytics (2021–2023)

- Drove price-volume-mix analysis for Fortune 500 software client by building a real-time dashboard that isolated product-level margin drivers; presented findings to general managers and recovered \$5M in margin leakage
- Led 15-person team to roll out custom program management methodology by standardizing workflows and building role-based training; reached 90% adoption across 4,000 users in 3 months
- Launched weekly performance reporting for CPG logistics client by defining KPIs, tracking risks, and leading root-cause sessions; surfaced recurring fulfillment failures and improved forecast accuracy 10% YoY

Republic of Korea Army, Gangwon, South Korea **2017 – 2019**

Sergeant, 2nd Artillery Brigade

- Ran 15 high-stakes artillery operations by leading 10 soldiers and interpreting for ROK and U.S. commanders
